IGIST Technologies (IGIST) is a San Diego-based company and has been in business since 1997. IGIST is aligned with the mapping industry leaders ESRI, Trimble, and Leica Geosystems. We provide training, GIS consulting, and application development for the geospatial community. IGIST's expertise areas are in web-based mapping applications, design and implementation of the geodatabase, use of remote sensing and image processing as mapping tools, and GPS field mapping services. IGIST strives towards integrated solutions to user applications, procedures, and workflows to produce more informed decision making.
